

AYUSH MAURYA

Computer Science Graduate | Software Engineer

ayushmaurya.dev04@gmail.com | [8755874646](tel:8755874646) | Khatima, Uttarakhand, India | [Linkedin](#) | [Github](#)

Summary

Computer Science graduate with strong knowledge of JavaScript, React.js, Python, Git, and web development. Passionate about building scalable web applications and solving real-world problems through software development. Familiar with AI-assisted development and prompt engineering to enhance coding efficiency and problem-solving.

Education

Invertis University Bareilly	CGPA : 7.5
B. Tech Computer Science and Engineering	2023-2026
Government Polytechnic Kashipur	CGPA : 7.5
Computer Science & Engineering	2020-2023
Uttarakhand Open University	Percentage : 60%
Bachelor of Arts	2020-2023

Experience

EduSkills	Virtual
Web Development Intern	April 2025 - June 2025
- Completed a 10-week Web Development Virtual Internship. - Learned modern web development concepts through hands-on projects. - Applied HTML, CSS, JavaScript concepts while completing practical assignments.	

Projects

World Time Dashboard	2026
- Built a zero-dependency web app featuring real-time global clocks, a custom time-difference calculator, and a responsive glassmorphism UI. - Integrated a live geocoding API with debouncing for global city searches and utilized localStorage to persist user themes and favorite locations.	

Leadership & Volunteer Experience

NSS	2020-2022
Participated in multiple volunteering programs, blood donation camps, and a 7-day NSS camp, demonstrating teamwork, leadership, and community service.	

Skills

Programming Languages	Frontend
python	HTML5, CSS3, JavaScript
Database	Tools
SQL, PosgreSQL	Git, GitHub, VS code, Windows
Soft Skills	AI & Development
Adaptability, Teamwork, Positive Attitude, Quick Learner	Prompt Engineering, AI-Assisted Development

Certifications

Namaste JavaScript

NamasteDev

Completed Namaste JavaScript by Akshay Saini, covering JavaScript fundamentals, asynchronous programming, closures, hoisting, promises, async/await, and the event loop.

Programming with Python

Internshala

Successfully completed a 6-week Programming with Python training and gained a strong foundation in Python programming.

IBM – Web Development

IBM

- Learned fundamentals of web page structure. Built static web pages using web technology.

Achievements

- Completed AICTE EduSkills Virtual Internship.
- Completed Namaste JavaScript Certification.
- Completed Programming with Python Training.
- Built a real-time World Time Dashboard.
